

# WITP Art Organisation

## *Manifesto*

**WITP is a charitable organisation dedicated to the advancement of the arts and culture within the UK. WITP supports contemporary art by providing a charitable platform which maximises public benefit by enabling easy and confident access to contemporary art, and by ensuring fair payment to contemporary artists.**

**WITP supports contemporary artists by exhibiting their works in vibrant and exciting locations, giving them an opportunity for future success in the art world. WITP is open to all fine artists and creative practitioners. They are encouraged to support and engage with one another, their communities and local audiences as well as communicate and exchange ideas and contacts.**

## *Our Objectives:*

To be accessible to all. WITP provides platforms for artists to sell art at affordable prices. We actively encourage the public, first time buyers and visitors to engage directly with our artists.

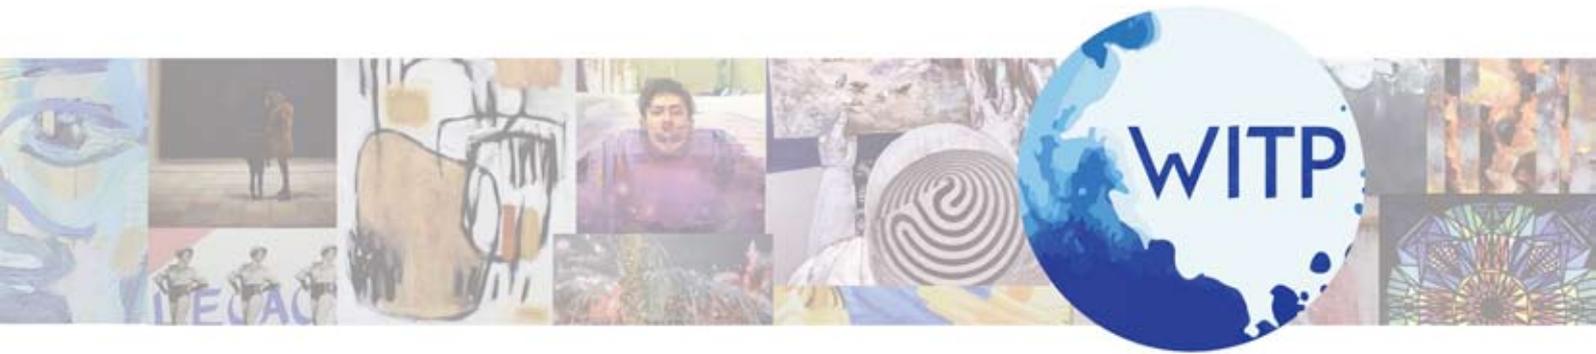

To promote fair payment of artists, and to open avenues of collaboration between artists and their wider communities while providing exciting and vibrant locations to exhibit their work.

To create, promote, maintain and improve opportunities for contemporary artists without compromise to their artistic exploration and development.

To maintain our not-for-profit status and ensure that we are benefiting the public by providing a bridge to contemporary art.

## *We work to:*

- Provide fair payment and a charitable platform for artists to share and sell their work without reliance on a formal commission structure.
- Deliver a vibrant and exciting educational program to ensure future art practitioners have the knowledge and tools to access and play an empowered role within the art world.
- Deliver education programmes for the visual arts audience and general public, particularly in respect of their relationship with working artists.

- Create international opportunities for our members and emerging artists — thereby embracing art's formative and imaginative potential for positive social change.
- Provide a free and open submission platform for all artists. We are an equal opportunities organisation, ensuring we are fair and inclusive of all. We hope to continue to be a truly inspirational cultural resource.
- Support our members by providing PR and marketing support as well as personal mentoring and advice to help them develop their artistic practice.

### ***The Future:***

WITP is an organisation dedicated to making art fair and accessible for all. We depend entirely on the support of trusts, individuals and businesses to continue our unique and important work. If you would like to support WITP then please visit [www.witp-art.com](http://www.witp-art.com)
